

I hope you can revise the following entries in the 49CFR HMT to align the 49CFR with the IMDG & ICAO (IATA) Regulations. Please add the word "extracted" after the word "Toxins," since it was accidentally left out of the proper shipping name.

Toxins, from living sources, liquid, n.o.s., 6.1, UN3172, I, II, III

Toxins, from living sources, solid, n.o.s., 6.1, UN3172, I, II, III

The new entries would be:

Toxins, extracted from living sources, liquid, n.o.s., 6.1, UN3172, I, II, III

Toxins, extracted from living sources, solid, n.o.s., 6.1, UN3172, I, II, III.

Thank you,

Jason Kob
